DATASHEET

COMPOSITE FOAM

MATERIAL	PROPERTIES	Sustainable, eco-friendly, temperature-resistant, very good noise and vibration damping, high tensile strength, high absorption or drop and collision energy	
	COMPOSITION	Foam flakes bonded with MDI glue	
	ORIGIN	Carefully selected recycled mattresses	
COLOUR	Varied		
RECYCLABILITY	100%		
DENSITY	200kg/m ³		
DIMENSIONS	SHEETS	2.000 x 1.000 mm	
	ROLLS	10.000 x 2.000 mm	
THICKNESSES	10mm • 15mm • 20mm		
TOLERANCES	LENGTH AND WIDTH	+/- 1.5%,	THICKNESS +/- 5%
FIRE CLASS	M4		
PURPOSES	Acoustic insulation inner walls Damping mat underneath floating screed floor Subfloor for laminate Underlayer for carpets Noise walls along highways Shockpad for playgrounds Shockpad for artificial turf Subfloor for rubber flooring
